

**PORTFOLIO EXTENSION**

for Industrial Ethernet (IE) by items with new PVC cable (S5200)

**PORTFOLIO STRATEGY | APPLICATION**

- The new PVC-cable S5200 extends ESCHA's PNO-compliant AWG22 IE-portfolio by a cost-effective alternative for applications without demands towards drag-chain- and torsion capabilities.

S5200   PVC	No demands towards motion, UL-approved
S2171   PUR	Drag-chain capable and robust, UL-approved
S5100   PUR	Drag-chain- and torsion capable (robotic), UL-approved

**KEY FEATURES**

- Cost-effective IE-portfolio with PVC-cable for low mechanical stresses.
- UL-approval granted for M12 and RJ45, prepared for M8.

**DATE OF PRODUCT RELEASE**

- Available as of now
- Data sheets and prices available

**LIST OF ITEMS**
